KENTUCKY'S UNIFORM CRIME REPORTING SYSTEM

KENTUCKY'S UNIFORM CRIME REPORTING SYSTEM

Prior to July 1, 1987, Kentucky's Uniform Crime Reporting System was based on monthly summary counts of criminal offenses and arrests. This data submitted by state and local law enforcement agencies was adequate for broad analysis of general crime trends, however it did not provide necessary tools for detailed studies required to meet the needs of criminal justice professionals, the law enforcement community and Kentucky legislators.

After July 1, 1987, law enforcement agencies were required to submit "Incident" information which differed from "Summary" in that it provided full detail crime specifics. This marked the beginning of Kentucky's Incident Based Reporting System which required the submission of either the Uniform Offense Report (UOR1) or the uniform data elements as contained in the statewide database. While not complete, Kentucky continues to make progress toward full implementation of a complete Incident Based Reporting System.

1996 and 1997

The compilation of the 1996 crime data proved to be a very challenging task for Kentucky State Police due to extensive automated data collection problems. We regret that these problems have not been remedied for the 1997 report. This situation has not effected the offense data, but continues to present problems for us in the storage and evaluation of arrest information.

In an effort to lend support to our crime data retrieval dilemma, the Administrative Office of the Courts, (AOC), provided arrest data for 1996 and are again in this 1997 Crime in Kentucky publication. Because of differing methods of compilation of data, you may notice a wide variance between prior 1995 and 1996 published arrest figures because they were collected from differing sources, however, you should not notice this difference between this year's and last year's statistics. This is due to the fact that we are printing comparable AOC data in this year's crime report, just as we did in the 1996 issue.

Currently Kentucky reports summary statistics in **Crime in Kentucky** and to the Federal Bureau of Investigation. A majority of law enforcement agencies are submitting incident or offense based information. However, several agencies are still submitting summary information due to various factors. With the approach of the year 2000, our goal is to become NIBRS compliant in that all data elements required by the FBI and NIBRS certification are captured. It is our intention, if budgetary constraints allow, to purchase a new computer system and software which would make this possible while, at the same time, update the offense and arrest reports to likewise capture all required elements.

TOTAL	125,366	130,892	-4.22%	100.00%

The total number of Part I crimes reported by law enforcement agencies in Kentucky during 1997 and 1996 is shown in the chart above. It should be noted that these overall statistics reflect only offenses reported to or known by the police.

There were 5,526 fewer Part I offenses reported in 1997, a decrease of 4.22% from 1996. The only category percentage increase was in murder, with an additional 26 reported during 1997, an increase of 11.45%.

When making comparisons between years, the following should be taken into account: (1) Part I offenses are not inclusive of all offenses reported to the police; (2) Increases or decreases in the number of crimes reported can be attributed to a variety of factors, including methods of reporting and tabulating on the part of the law enforcement agencies; (3) Differing levels of citizens' awareness and their responsibility to report crime have a direct impact on the number of reports received by police.

The largest percentage of decrease was in the Robbery category. The second largest percentage of decrease was in the Rape category. This was a direct result of improved reporting and verification procedures which were implemented in 1996. Rape is now reported by the number of reported victims rather than the number of offenses against the same victim. Therefore, one crime is being counted per victim instead of the number of charges or counts of rape.

KENTUCKY "CRIME INDEX" = 3,231.1

The crime index, or rate, is used nationally and is derived from the following formula:
Population divided by 100,000 = X
Number of offenses divided by X = crime index.
Kentucky's crime index for 1997 is based on the current estimated population of 3.88 million.

<div style="border:1px solid black; text-align:center;">

A SERIOUS CRIME OCCURS IN KENTUCKY EVERY 4 MINUTES, 11 SECONDS.

Below, Part I offenses are shown for those jurisdictions over 10,000 in population.

CLEARANCE RATES

Clearance rates are the percentages of cases cleared (through arrest or exceptional means) when compared with the total number of offenses reported to or known by the police. As shown in the chart, clearance rates for property crimes are traditionally low. With the exception of robbery, clearance rates for violent crimes are high. High clearance rates for murder, rape, and aggravated assault are attributable to the fact that the perpetrator is known, recognizable, or in some way usually associated with the victim. Low clearance rates for robbery as well as property crimes can be attributed to the difficulty of the victim identifying the perpetrator.

The right-hand chart depicts the relative clearance rates of property versus violent Part I crimes.

The chart below depicts relative clearance rates for each of the seven Part I crimes.

DEFINITION

Murder is the unlawful killing of a human being with malice aforethought. Justifiable homicides and traffic-related deaths are not included.

NUMBER REPORTED	CLEARANCES	RATE
253	**176**	**69.57%**

Murder is the most serious of all Part I crimes. The clearance rate is the highest of all Part I crimes, at **70**%. Although some murders are difficult to solve, the intensity of police investigations, together with solvability factors, account for the high clearance rate for murder.

RAPE

DEFINITION

Rape is defined as the carnal knowledge of a person, forcibly or otherwise, against the person's will. Only forcible rapes are included, together with assaults for the purpose of rape and attempted forcible rapes. Excluded are rapes where the victim is under the age of consent and no force is used.

NUMBER REPORTED	CLEARANCES	RATE
1,191	572	48.03%

The **48**% clearance rate for rape is high when compared with property crimes. One explanation for the number of rapes cleared is the fact that the victim and the offender are frequently acquainted or even related.

ROBBERY

DEFINITION

Robbery is the felonious taking of the property of another by force, the threat of force, violence, and/or by putting the victim in fear. All attempted robberies are included. Robberies are reported in two general categories: armed (any weapon or threatening object is used) and strong-arm (to include muggings and similar offenses where no weapon is used but strong-arm tactics are employed).

NUMBER REPORTED	CLEARANCES	RATE
3,886	1,155	30%

Robbery is considered to be a serious crime because the element of fear and personal confrontation with a weapon or strong-arm tactic is always present. The **30**% clearance rate for robbery is slightly higher than for other crimes motivated by the theft of property, but low in comparison to murder, assault, and rape in which the element of personal confrontation is also present. This is attributable to the fact that the perpetrator usually conceals his personal identity from the victim.

Reported robberies decreased by **9.01**% in Kentucky in 1997.

Robbery classifications denote the type of robbery reported. Highway robberies occur on any roadway, whether it be a highway, county road, or city street. Commercial house robberies are those perpetrated in hotels, motels, restaurants, and like businesses. Chain store robberies include convenience type stores, groceries, and like businesses. Residences include homes and apartments and other dwellings.

AGGRAVATED ASSAULT

DEFINITION

Assault is the unlawful attack by one person upon another for purpose of inflicting severe or aggravated bodily injury. It is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is used which could, and probably would, result in serious personal injury. Therefore, all assault attempts where serious injury would have been likely to occur are included. Excluded from the Part I crime of aggravated assault are all assaults which do not include the use of a dangerous weapon and in which there was no serious or aggravated injury (assault 4th). These simple assaults are counted as Part II crimes.

NUMBER REPORTED	CLEARANCES	RATE
7,997	5,212	65.17%

The **65**% clearance rate is high because the victim is frequently related to or acquainted with the assailant.

AGGRAVATED ASSAULT WAS COMMITTED EVERY 1 HOUR, 1 MINUTE

The category of aggravated assault includes the following offenses: attempts to murder, poisoning, assault with a dangerous or deadly weapon; maiming; assault with explosives; and all attempts to commit said offenses.

BURGLARY

DEFINITION

Burglary is the unlawful entering or remaining in a building with the intent to commit a crime. This includes entries where force of any kind is used to gain entrance, entries where no force was used (an unlocked door or by concealment), and attempts to enter forcibly (even though entry was not actually gained).

BURGLARY WAS COMMITTED EVERY 19 MINUTES.

THE COST OF BURGLARY

Burglary is a crime of opportunity and is most likely to occur when a home or business is not occupied. The number of burglaries, classified by residential and non-residential, including both day and night occurrences, and the value of property losses reported, is shown in the table below.

LARCENY

DEFINITION

Larceny, or larceny-theft, is the unlawful taking of property or articles of value without the use of force, violence, or fraudulent conversion. Included are such offenses as pocket picking, purse snatching (where little or no force is used), shoplifting, thefts from autos, thefts of auto parts and accessories, bicycle thefts, and thefts from buildings when the perpetrator entered legally. Con games, forgeries and bad checks, embezzlement, and obtaining money under false pretenses are not included under the category of larceny.

NUMBER REPORTED	CLEARANCES	RATE
74,557	17,568	23.56%

Larceny is the most frequently committed Part I crime. Other than the stolen property itself, there are normally few clues on which to base an investigation. Consequently, the clearance rate for larceny is low at **24**% in 1997.
